

TATVA ENTERPRISE

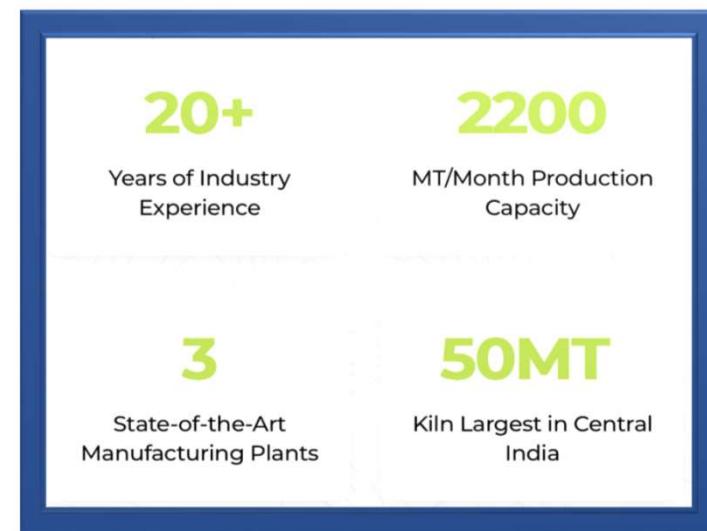

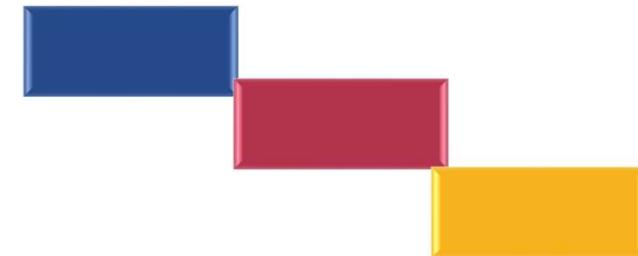

Tatva Enterprise

Tatva Enterprise is a leading business house engaged in the mining, one of the leading manufacturers of high-quality, industry-standard manganese products.

We are committed to excellence, sustainability, and community empowerment

Tatva Enterprise

Our Vision & Commitment

At Tatva Enterprise, our vision is to be a global leader in sustainable bauxite mining, Manganese, and export. We are driven by quality, innovation, and responsibility to serve our client.

We are committed to:

- Excellence in processing through advanced technology
- Sustainable, eco-friendly operations
- Reliable supply and customer partnerships
- Global growth and capacity expansion
- Community development through social impact

Manganese & Minerals Industries ensures that our high-quality manganese products meet and exceed the stringent demands of wide and diverse sectors.

Manganese Di-oxide (MnO₂) Powder

Manganese Dioxide Granules

Manganese Di-oxide Powder is a versatile compound widely used in batteries, ceramics, and water treatment processes. Its high purity and fine particle size ensure optimal performance in various applications

Manganese Dioxide Granules are engineered for exceptional performance in water filtration systems and chemical applications. With controlled particle size and high reactivity, these granules ensure efficient and reliable results across various industrial processes.

Manganese Sulfate (MnSO₄)

Manganese Sulfate is a key component in the agriculture and fertilizer industry, known for promoting healthy plant growth and addressing manganese deficiencies. Our high-purity sulfate ensures optimal effectiveness in various soil applications.

Manganese Oxide (MnO) Powder

Manganese Oxide Powder is a versatile compound with applications ranging from ceramics to agriculture. Known for its consistent quality and purity, this powder ensures optimal performance across diverse industrial sectors.

Manganese tetraoxide (Mn₃O₄)

Manganese tetraoxide is used as a pigment for coloring bricks and ceramics. It also serves as a catalyst for chemical reactions, including those that treat pollution.

Manganese Sulphate Solution

Manganese Sulphate Monohydrate is a versatile compound widely used in animal nutrition, industrial processes, and water treatment. With high solubility and consistent quality, it ensures optimal results in various applications.

High Carbon Ferro Manganese

Ferro Manganese is Used as a key additive in steel production to remove impurities like oxygen and sulfur, enhancing the metal's toughness, hardness, and strength. It also serves as an alloying material in cast iron and stainless steel to improve wear and impact resistance. Additionally, it is used in the manufacturing of welding electrodes and as a raw material in certain chemical and metallurgical processes

Quality

- We prioritize quality at every stage.
- Each of our mineral products exceeds industry standards and offers superior performance along with trust-worthy reliability

Testing & Quality Assurance

We are a mining company operating in the region, with an active chemical testing laboratory. Our laboratory is equipped with state-of-the-art instruments to ensure precise and reliable analysis.

Good Manufacturing Practice

Certificate of Compliance

*This is to certify that
The Management System of*

TATVA ENTERPRISE

*Shop No. 602, 6th Floor, The New York Empire, SP Ring Road,
Ahmedabad-382330, (Gujarat), India*

*has been assessed and found to be in compliance
with the requirements of the standard*

GOOD MANUFACTURING PRACTICE

GMP

for the following scope :

**Manufacturer, Supplier and Exporter of Various Types Calcined bauxite,
Limestone, Manganese Dioxide, Bentonite and China Clay**

CERTIFICATE NO. : 25ZMZE03008G

**ISSUED DATE : 03/07/2025
EXPIRY DATE : 02/07/2028**

**1ST SURVEILLANCE : 02/07/2026
2ND SURVEILLANCE : 02/07/2027**

Authorised Signatory

**INTERNATIONAL QUALITY CERTIFICATION SERVICES UK LTD
272, Bath Street, Glasgow, G2 4JR, U.K.**
The Certificate is intellectual Property of IQCS and can be maintained through surveillance and renewal audits.
Certificate should be returned to IQCS in case of non compliance of certification procedure.
Authenticity of this certificate can be verified at www.ukacert.co.uk or www.iqcet.co.uk
The Registration is not a Product Quality Certificate.
